Activity	Plan	Do	Check	Action
Practicum	Practicum regulation Plan	Make practicum regulation	Evaluate practicum regulation	Make practicum regulation in accordance with the evaluation results
	Practicum timeline plan	Make practicum timeline	Evaluate practicum timeline	Develop timeline under appropriate conditions
	Plan practicum module	Develop practicum module	Evaluate practicum module	Designing the practicum module changes for the next semester
	Plan distribution of tasks during practicum	Develop distribution of tasks during practicum	Evaluate distribution of tasks during practicum	Adjust distribution of tasks with the ability of each assistant
	modules Responsible distribution Plan	develop the module Responsible	Evaluate the module Responsible	Adjust the module Responsible
	Plan assistant meeting	Develop assistant meeting	evaluate assistant meeting result	Scheduling meeting more effective and efficient with the presence of all operators
	Plan groove practicum: ProModel module, module basic arena, the arena advanced modules, test project, presentation of the project, taking forward the value and lecturer	Groove practicum: ProModel module, module basic arena, the arena of advanced modules, test project, presentation of the project, taking forward the value and lecturer.	Evaluation groove practicum: ProModel module, module basic arena, the arena of advanced modules, test project, presentation of the project, taking forward the value and lecturer.	Develop practical grooves that are better able to accommodate the ability of the practitioner (ProModel module, module basic arena, the arena of advanced modules, test project, presentation of the project, making the value and advanced faculty.
